Week 9

8 June 2020

Hello Kites

Thank you for your nature pictures last week. We have another interesting artist this week, I think you may have studied him in KS1.

As well as the spelling in the book please keep working on your y3/4 and y5/6 words.

Don't forget there are lots of spelling activity ideas on the Key Information page as well as lots of reading ideas.

You can choose how to present your topic work this week. I'm interested to know which creatures you will choose!

Mrs Henshall

Maths

These activities must be completed throughout the week:

- Fluent in 5 Sheet - **daily**
- 5 Minute frenzy—**These are on the Key Information Page**
- **TTRS—Go on and practise your tables**
- Arithmetic
- **My Maths**— Factors, Primes and Square numbers—these are really important things to remember as you get ready for Y6

English:

Spelling and grammar

Spelling: 76 and 77

Grammar: CGP book

Pg 14—Determiners—we did this in class. When we are talking about a particular thing

Pgs 15, 16, 17—Clauses and relative clauses. **Remember** a clause has to have a verb in it

English: Writing

Greedy:

I would like you to find out about rats and what their homes are like. Does a rat's home have a particular name? Eg rabbits live in warrens.

Compound sentences separated by a colon. Remember the first part of the sentence gives information and the second part adds extra detail. If it is a clause it **must have a verb**. This means both parts of the sentence need a verb.

Try to write 5 compound sentences about the image to practice.

Then try to use one in your creative writing to show you fully understand how to use them.

English : Reading

<https://literacytrust.org.uk/family-zone/9-12/book-hopes-for-children-during-lockdown/>

Read **Bag for Life**

Then answer the questions. I'll be interested to know what you think of the ending.

Nature Learning

<https://www.wildlifetrusts.org/webcams>

I hope you managed to look at the webcams last week. If not try to look this week.

I would like you to pick a creature native to the UK and do your own research about it.

Create an information poster about your chosen creature that could be used to teach others about it. What would be the key information that people would need to know?

<https://www.wiltshirewildlife.org/wildlife-resources>

<https://www.wildlifetrusts.org/wildlife-explorer>

Art:

Giuseppe Arcimboldo was well known for creating images of heads using fruit and vegetables.

Can you create your own image using all different kinds of objects—these could be natural or man-made.

Science – To be completed over 2 weeks

Over the next two weeks we are learning about melting and freezing.

Look at BBC bitesize to remind yourselves of the three states of matter and how materials change between the three: <https://www.bbc.co.uk/bitesize/topics/zkgg87h>

Complete the melting and freezing sheet attached.

Here is a fun, little experiment to try. Can you pick up an ice cube by laying a piece of string on top? What could you do to help it along? I've attached a sheet of instructions to guide you through the experiment – Ice cube experiment.

Please can you write up your results and conclusion in your red book.

Keeping active:

<https://www.youtube.com/watch?v=d3LPrh10v-w&safe=active> The Body Coach

<https://www.youtube.com/watch?v=tWSgNEs4IPg&safe=active> Yoga
<https://family.gonoodle.com/> Dance

Other Activities (If you choose)

J K Rowling has published a new story called The Ickabog free to read online! She is releasing a chapter everyday. You can also take part in the illustration competition! Enjoy :-)
