

Have Fun With Geography

<https://www.geoguessr.com/>

Use this website to investigate different places.

Play the game WORLD—How good are you at guessing Where in the World somewhere is?

You do not have to pay for this game but you can only play so often each day

Locations

Use the website:

<https://www.mapcrunch.com/>

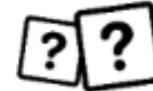

It will take you to a different place each day.

Can you locate that country and its capital city on a map?

Find out 5 facts about that country and identify it's flag.

Using our learning in school can you say which climate zone it is in?

Trivia

Can you name or find out:

1. The biggest country (by land mass).
2. The most populated city.
3. The tallest building.
4. The largest lake.
5. The longest river.
6. The tallest mountain.
7. The deepest ocean.
8. The longest coastline.

Can you find them for the world and for the UK?

Physical Geography

What are the different kinds of physical geography and can you name an example of one in the world?

Eg Mountains—Everest in the Himalayas
