What if

What would happen if...

All countries were equal?

Think about the opportunities and challenges this would create. Would it be a positive or negative experience?

Geography Challenges

Can you complete all the challenges this week? You may use the internet to help you find out all the information you need!

What if

What would happen if...

The weather was the same everywhere.

Think about the opportunities and challenges this would create. Would it be a positive or negative experience?

Trivia

Can you work out these country outlines?

Riddle me this..

I stay in the corner but travel around the world. What am I?

I have seas without water, forests without wood. I have deserts without sand and houses with no bricks. What am I?

Play

GeoGuessr is a game that drops users somewhere in the world, and players have to figure out where they are based on clues. Your virtual self can walk around the area that you're dropped in, visit streets and people, and try to guess where you are using Google Maps.

It's free to sign up so get guessing!
<https://www.geoguessr.com/>

Trivia

Can you name or find out:

1. The biggest country (by land mass).
2. The most populated city.
3. The tallest building.
4. The largest lake.
5. The longest river.
6. The tallest mountain.
7. The deepest ocean.
8. The longest coastline.

Can you find them for the world and for the UK?

Window Geography

What Geography exists out of your bedroom window....

We want you to take a photo and annotate it (can be on the computer) to show the Geography you can see!

Trivia

Can you work out these capital cities without their vowels?

Rg	Bgt	Crdf
Bngkk	Tky	Mnsk
Brln	Cnbrr	Kbl

Bonus: can you tell me which country they are the capital of?
