

What I will know by the end of the unit:

- I can name a variety of common wild and garden plants.

				
Poppy	Buttercup	Dandelion	Daisy	Doc leaf
				
Cow parsley	Pansy	Rose	Tulip	Stinging nettle

- I can name and label the basic parts of a flowering plant.
- I can explain the way a bean or seed grows.

Key Vocabulary

Trunk
Branch
Bark
Leaf
Root
Bud
Flowers
Blossom
Petals
Stem
Bean

This unit of work links to ...

- Work on seasonal changes carried out at the end of each term.
- Working on habitats and environments from last terms learning.

Investigate!

- Plant this seed. What do you think it will grow in to? Lets water it, watch it grow and record the changes in a diary.
- How many different plants can you name. Lets go on a Welly walk and see how many different plants we can find.
- Lets collect some plant samples. Can you name and label the key parts?
- What happens to the beans when they grow?
