

# Y3 Home Learning Week 4

## Maths:

This week, the MyMaths activities are focusing on addition and subtraction. Tackle the activities at your own pace throughout the week. Have a go at some of the games on MyMaths too.

*If you want any extra activities, you can still use:*

- *TTR / Hit The Button*
- *Fluent in 5*
- *Rapid reasoning*
- *5 minute frenzy*
- *White Rose Maths Hub problem of the day*
- *Can Do Math resource—fractions*

## Writing and grammar:

- English learning starts by looking at diaries and the way they are written. Just like last week, all the work is set out into daily activities for you to do throughout the week.

## Reading:

- Pick one of the suggested reading activities (Key Information page).
- Read this week's 'Picture News'. What is your opinion on what you have read?
- There is another newspaper to try this week. It is called First News. The book review section needs new submissions. Could you review a book you have read and send it into First News? You might even get published!

***Dear parents,  
Here is an overview of the learning we would like your child to complete this week.***

***I will email you on Wednesday to check how you are getting on but please contact me if you have any questions in the meantime.***

***Please keep checking the school website for updates. I will add any good resources I find onto the class page.***

***This is a great opportunity to get reading, at least 5 times a week for 20 minutes. EEF has issued a helpful guide for parents to use when reading with their child. I have included it with this weeks resources***

## History:

I loved seeing your interpretations of the Romulus & Remus story. I am so impressed by your creativity! Now you know the myth of how Rome was formed, lets look at some facts. Use this link to explore more about ancient Rome <https://www.bbc.co.uk/bitesize/topics/zwmpfg8/articles/z2sm6sg>

Using what you have discovered, create a timeline plotting the major events in chronological order. Can you explain why the date changes from BC to AD?

## Science:

What do plants need to grow big and strong? <https://www.bbc.co.uk/bitesize/topics/zy66fg8/articles/zcmtk2p> Plant 4 seeds (maybe from an apple you have eaten) in separate pots. 1 will have no light, 1 will have no warmth and 1 will have no water. The last seed will have everything. Use the sheet provided to plan your experiment and record your results. You will carry out this test for 3 weeks.

## Spelling:

To complete every day:

- Practise of Y3 tricky words using suggested activities (Key Information page).

## P.E.

Use the PE newsletter for some great ideas to help you stay active this week.
